Health IT exists to save lives. And the faster you can make well-educated and informed technology decisions, the more lives you'll be able to save.

The Platform

- is an immediate resource for health systems executives looking to select technology vendors

- enables vendors to understand digital transformation priorities and competitive landscape

- is a valuable source of information for industry analysts

DamoIntel™: The first and only Digital Health Intelligence Platform for health systems and technology providers.

The DamoIntel™ Digital Health Intelligence Platform is a comprehensive database of digital health initiatives in the nation's top health systems. It provides detailed insights and analysis of digital health use cases, solution providers and technology/application categories.

- How do you make informed decisions to drive digital investment priorities for your enterprise?

- Have you found it challenging to assess the competitive landscape of digital health solution providers?

Key features

- Easily searchable, indexed database of digital transformation initiatives in the top 50 health systems*

- Easily searchable, indexed database of over 300 technology vendors offering services and products that enable digital transformation*

- **Intuitive user interface** and reporting templates

- **Regular, automated updates** to ensure database is current

- **Algorithmic curation** to ensure information is reliable and accurate
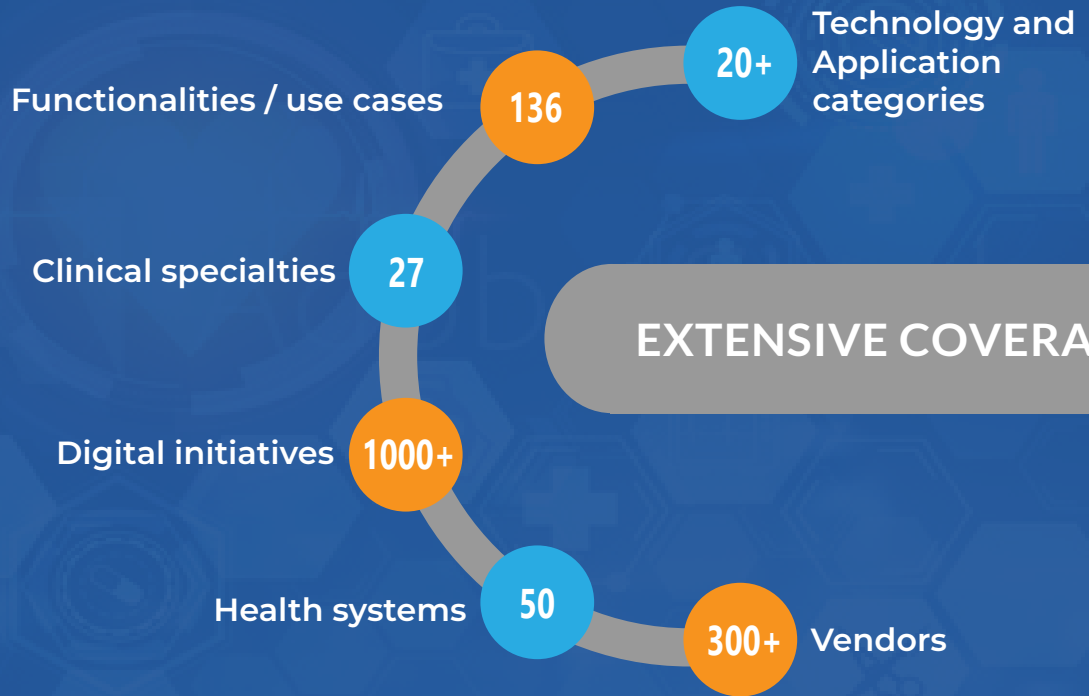

The DamoIntel™ platform answers some of the most pressing questions for digital transformation leaders:

- *What are the top digital initiatives implemented by health systems?*

- *Who are the technology partners that other health systems are working with?*

- *What are the main use cases for digital front door solutions?*

- *Where can I learn about other health systems who have worked with a vendor?*

- *Can I get a list of vendors who offer a particular solution I am looking to implement?*

We Track

Functionalities / use cases **136**

20+ Technology and Application categories

Clinical specialties **27**

EXTENSIVE COVERAGE

Digital initiatives **1000+**

Health systems **50**

300+ Vendors

How Health Systems Use the DamoIntel™ platform	How Tech Vendors Use the DamoIntel™ platform
• View the digital initiatives of your peers • Learn about the high impact industry use cases • View the profiles of leading vendors implementing digital health solutions • Identify vendors that can help implement your digital roadmap	• Understand the digital health solutions landscape • See what major health systems are implementing • Develop your target audience for potential opportunities • Learn about competitors and their capabilities • Evolve your product offerings
